

# DG SERIES

# TRANSFER GRILLE

- DG2** – Double frame (model shown)
- DG1** – Single frame
- DGC** – Core Only

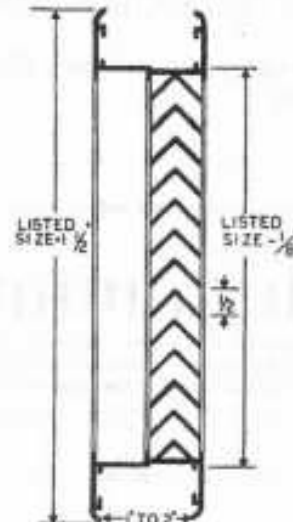

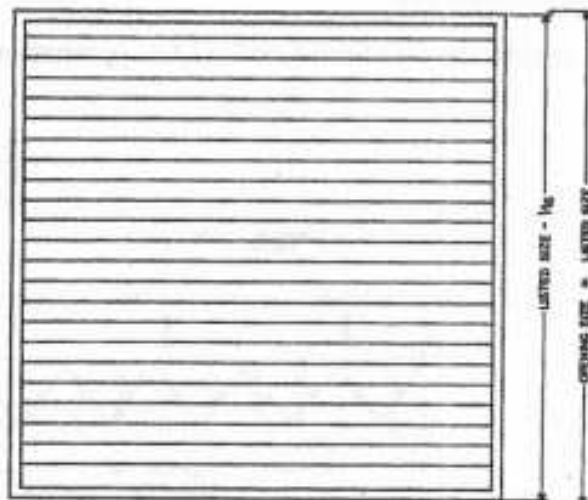

**DESIGN:** Designed to allow air passage through partitions, the DG Series has a high percentage of free area. (over 52%, depending on length-to-width ratio.)

**FEATURES:** Extremely attractive appearance.  
 High percentage of free area.  
 VINYL blade spacers assure rattle-free performance.  
 CORNER KEY construction prevents open mitres and provides increased rigidity.  
 Entire unit assembly by mechanical means—no spot welds subject to breakage.

**CONSTRUCTION:** .050" extruded aluminum frame and blades.  
 VINYL blade spacers.  
 Anodized finish. Can be painted, if desired, without priming.

**APPLICATION:** Designed primarily to allow air passage through doors, the DG Series may be applied wherever air transfer is required without regard to volume adjustment.
