

EDR-OB SERIES

PATTERN DIFFUSER – WITH REMOVABLE CORE

EDR-10B – One way
EDR-20B – Two way

EDR-2COB – Two way corner

EDR-30B – Three way
EDR-40B – Four way

DESIGN: The EDR-OB Series is available in square and rectangular patterns. The core is removable.

FEATURES: Ceiling opening is the same as the duct size. Features a removable core, with commercial air handling capabilities.

CONSTRUCTION: Corner key construction. Aluminum extrusion throughout, except: (NOTE A) center cone, in square configurations only, is stamped aluminum alloy 1100. In rectangular configurations, the center cone is extruded aluminum. Finish is etched, satin finish. Can be painted. Neck sizes in 3" increments.

APPLICATION: Designed for ceiling applications where appearance and performance are critical, where a volume control is specified.
